- Multi-user remote control - compatible with most web connected devices
- One cable controls dozens of zones/areas
- Control irrigation, lighting, pool pumps and more
- Simple expansion

Call 02 9489 4118 for an obligation free quote.

Features & Benefits

- Control dozens of independent zones with one controller.
- One single cable for all zones.
- Simple to install - one cable means less digging and maintenance.
- Control irrigation, lighting and mains powered devices.
- Control all necessary pumps, purge and diverter valves.
- Unlimited expansion opportunities.
- Superior water management & calendar scheduling capabilities:
 - Unlimited number of schedules per day and in total
 - Durations can be set to days/hours/minutes/seconds.
 - On/Off times can use local sunrise/sunset/solar noon.
 - Set up a “Series” to turn on two or more areas one after the other.
 - Set up a “Group” to control several zones simultaneously.
 - “Wet & Wait” on/off cycling – allows water to soak in.
 - Be notified of “banned times” e.g. prohibited watering hours.

Most other systems are very limited, inadequate and clumsy to use. No other system has the features and benefits of the Easy Irrigation Control System. It's smart, user friendly technology allows you to control all of your landscaping needs with just one click.
